FINAL CLEARANCE

FALL-1941

"MIRACLE" BUSH CHERRY—This new bush cherry, illustrated above as it blossoms in the springtime, is the result of 40 years cross breeding. The fruit is large and delicious to eat from the bush and makes a wonderful jam of superb flavor and richest color imaginable. The bush branches from the ground up and is literally covered with its delicious fruit all along the full length of the twigs and branches, just as it is covered with attractive snow-white blossoms in the spring. The blossoms are followed by silvery green foliage, turning to rich red and gold in the fall, so that the bush is always highly ornamental. They are superb as a hedge or foundation planting, or as specimen shrubs placed anywhere in the garden. The fruit of course may all be picked without the use of a ladder. They are hardy from coast to coast and from the Gulf of Mexico right into Canada. The strong plants I will send are bearing size and will produce many times their cost in delicious fruit each season.

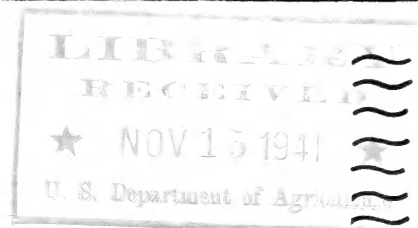

1.50 each; 3 for \$3.75; 6 for \$6.00; 12 for \$10.00.

FRUIT TREES

"ANOKA" APPLE—Best for the Home Garden

Bears Fruit the First or Second Year after Planting.
Bears large crops of delicious apples EVERY YEAR.
An excellent Summer Eating Apple and a superb cooker.
Disease resistant and hardy even in the coldest northern states and up into Canada.
No other apple can combine the wonderful flavor, early bearing, and great productiveness of the Anoka Apple. The fruit is of good size and beautifully striped red. There is no other apple like Anoka. It is a new apple and the result of many years of hard work and thousands of crosses. It was the one selected as the culmination of all these efforts, as combining all of the best points of hardiness, early bearing, productiveness, and superb flavor. Being of medium dwarf habit it is the best apple for the small garden. The size, color, and flavor of Anoka Apple are sure to make it a great favorite. In addition to its abundant crop of delicious fruit, nothing excels it in beauty when it is loaded down with blossoms in the Springtime. It's an investment, not an expense, as every tree will pay for itself several times over each year in delicious fruit. Husky Trees, ready to bear—\$1.50 each; 3 for \$3.75; 6 for \$6.00; 12 for \$10.00.

"RED DELICIOUS" APPLE—The Red Delicious Apple is so well known that it is hardly necessary to say anything about it. It is the one fancy apple that outsells all others on the high class fruit stands. Color red, fruit sweet, juicy, and delicious. Handsome spring blossoms. Hardy and very productive at an early age. Strong 4 to 5 foot, 4 year old trees, \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50; 100 for \$45.00.

"GRIMES GOLDEN" APPLE—Excellent yellow apple of large size, crisp and juicy and mild sub-acid flavor. Handsome spring blossoms. Hardy anywhere. Strong 4 to 5 foot, 4 year old trees, \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50; 100 for \$45.00.

"STAYMAN'S WINESAP" APPLE—The favorite winter apple, with handsome firm fruit of the most delicious flavor, slightly tart and full of juice. Excellent eating or cooking apple. Handsome spring blossoms. Hardy anywhere. Strong 4 to 5 foot, 4 year old trees, \$1.00 each; 3 for \$2.50; 6 for \$4.50; 100 for \$45.00.

"GAGE ELBERTA" PEACH—A rich, sweet, juicy, golden yellow freestone of delicious flavor. The rich golden yellow skin having a dark red blush on the sunny side. The fruit is large and it is one of the best all-round Peaches grown. Hardy anywhere. Excellent strong 5 foot trees ready to bear. \$1.25 each; 3 for \$3.25; 6 for \$6.00; 12 for \$10.50; 100 for \$60.00.

"BELLE OF GEORGIA" PEACH—The State of Georgia is famous for its superb peaches and "Belle of Georgia" is the best all-round white freestone Peach grown in Georgia or anywhere else. The Peaches are large, of delicious flavor and have an attractive blush, and the trees like all others offered in this sale, are hardy and productive. PEACH TREES ARE THE MOST ATTRACTIVE AND ORNAMENTAL TREES FOR EARLY SPRING BLOSSOMS AND WILL FURNISH MANY TIMES THEIR COST IN DELICIOUS FRUIT EACH SEASON. \$1.25 each; 3 for \$3.25; 6 for \$6.00; 12 for \$10.50; 100 for \$60.00.

NEW PLUM-CHERRY HYBRID—Something entirely new. The fruit is of a delicious sweetness and in favorable seasons will bear fruit the year after planting. Color of skin and fruit rich intense purplish black-red. Hardy everywhere even in the most severe climate of our extreme Northern States and Canada. Branches from the ground up in shrub form so that all fruit is within reach from the ground. A prodigious bearer, as the strength of the plant all goes into producing fruit and not surplus wood, the limbs and branches being covered with a solid mass of blossoms in early spring, followed by the most delicious fruit. Strong 3 to 4 foot trees, ready to bear fruit. \$2.50 each; 3 for \$6.50; 6 for \$12.00.

MULBERRY—The Mulberry is one of our most attractive trees. It produces great quantities of delicious berries, much like a coreless, seedless blackberry. Aside from producing a delightful shade tree and providing great quantities of berries for the table, they will bring many attractive birds to your garden as the fruit is a favorite "tidbit" of all sorts of birds. I have a limited supply of nice sturdy, 3 to 4 ft. trees, at \$1.00 each; 3 for \$2.50; 6 for \$4.50.

CELESTIAL FIGS—Most gardeners are not aware that figs are hardy in our northern states. Even if the tips are killed back by severe freezing weather they will send out new growth and produce huge quantities of fruit all summer long. If you have never eaten fresh figs, picked off your own tree you will have a pleasant surprise coming to you; and as a desert sliced and served with cream, there is no more delicious delicacy. \$1.50 each; 3 for \$3.75; 6 for \$6.00; 12 for \$10.00.

NUT TREES

\$250,000 for 80 acres of Walnut Timber. Very few people realize the timber value of walnut trees, yet during the last World War a farmer in Iowa sold his 80 acres of Walnut Timber from trees planted 40 feet apart for TWO HUNDRED AND FIFTY THOUSAND DOLLARS. He had meantime been making a living from them selling the nuts by the carload in the Chicago market. Even during peace times, as high as \$450.00 has been paid for a single tree. I have for many years been advocating the planting of spare land in Walnut trees for future profit. Once planted they require little or no care.

For the home garden there is no finer looking or more useful shade tree. It is therefore a three purpose tree; while it is developing into a beautiful shade tree and producing luscious nuts, it is also increasing in timber value from year to year. The timber is used for gun stocks and therefore demands a high price during war times; and it is also scarce enough to demand a high price during peace times. So whether you wish one or more shade trees for the home garden, or have some spare land somewhere and have an eye to the future, I again recommend "PLANT WALNUT TREES."

FINE 3 to 4 foot sturdy trees, \$1.25 each; 3 for \$3.25; 6 for \$6.00; 12 for \$10.50; 100 for \$60.00.

BLIGHT RESISTANT CHESTNUTS—When I first came to Long Island 35 years ago it abounded with huge stately Chestnut trees, nature's most magnificent shade trees. Then the blight came, one of the many foreign pest importations, and as a result every last chestnut tree was wiped out, not only on Long Island, but throughout the entire country. The United States Department of Agriculture thereupon began a very thorough research to determine what might be done about it. The result was the discovery in China of a blight-resistant Chestnut Tree, producing nuts of exceptionally fine flavor. I am pleased to be able to offer this year some of these blight-resistant Chestnut Trees, three years old at \$1.25 each; 3 for \$3.00; 6 for \$5.00; 12 for \$9.00; 100 for \$50.00.

BUTTERNUT TREES—A tree of the walnut family with elongated nuts that have a delicious sweet kernel. They are also often pickled when young. The hardwood is valuable and is used for interior trim. The tree is highly ornamental and interesting. \$1.25 each; 3 for \$3.25; 6 for \$6.00; 12 for \$10.50; 100 for \$60.00.

SHADE AND ORNAMENTAL TREES

BABYLON WEeping WILLOW—The Weeping Willow tree is always interesting and this species is the best of them all. Especially prized for its quick growth and exceedingly long graceful drooping branches and long narrow leaves up to 8 inches long and interesting catkins with the leaves. 2 to 3 foot trees. 85c each; 3 for \$2.25; 6 for \$4.00; 12 for \$7.50; 100 for \$40.00.

PIN OAK—The most handsome, useful, and ornamental of the Oaks, especially for small grounds or street planting. The luxuriant cut-leaf foliage assumes a bright red color in autumn. Erect, symmetrical, rapid growing. Fine, strong, young, 2 to 3 foot trees, 85c each; 3 for \$2.25; 6 for \$4.00; 12 for \$7.50; 100 for \$40.00.

KENTUCKY COFFEE TREE—A specimen that is now 40 ft. high planted by me as a tiny tree 20 years ago, is the pride of my home garden. I have never known anyone who has seen it who was not fascinated by it. A full grown tree grows 100 feet high. The foliage is as artistic as the finest fern. It belongs to the Pea family, producing greenish white flowers in large clusters at the end of the branches, followed by heavy pods like lima beans, inclosing mahogany colored beans that take polish like a bead. The trees should be planted while quite young. Nice young trees, \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

GINKGO—A native of China, and the one remaining specimen of a prehistoric race of trees that lived when the Dinosaur roamed the earth. The foliage resembles the leaf of a maiden hair fern, and the tree therefore resembles a huge fern tree. The foliage is leathery and the tree is free from insect pests and diseases. Perhaps that is the reason the species has survived through the ages. The tree is of upright growth and eventually reaches the enormous height of 120 feet. I have a limited supply of young trees of this interesting species for sale at \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

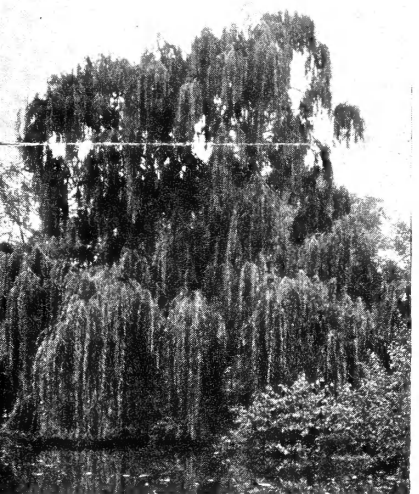

CANOE BIRCH—Winter or summer the snow white bark of the Canoe Birch is a delight in any garden or landscape. For best effect they should be planted in groups of several trees a few feet apart, the number depending upon the space available. I have some extra fine, husky trees available this fall at \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

SIMONI POPLAR—A very handsome and attractive shade tree. I have a few extra fine strong 5 to 6 foot trees which I will sell at \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

BLACK LOCUST—Ornamental trees with fern-like foliage and delightful spring blossoms like a big bunch of sweet peas. Strong 6 ft. trees, \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

White Flowering Dogwood

FLOWERING AND DECORATIVE TREES

SINGLE WHITE FLOWERING DOGWOOD (See illustration at left)—Delightful early, spring flowering trees for sun or shade. In addition to their being loaded with blossoms in the Spring they are always attractive, Spring, Summer, and Fall. During the Fall they are the first to change to a brilliant red. Nice young trees, 2 to 3 ft. \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

PINK FLOWERING DOGWOOD—This rare variety has attractive pink blossoms in the early Spring. \$2.50 each; 3 for \$6.50; 6 for \$12.00.

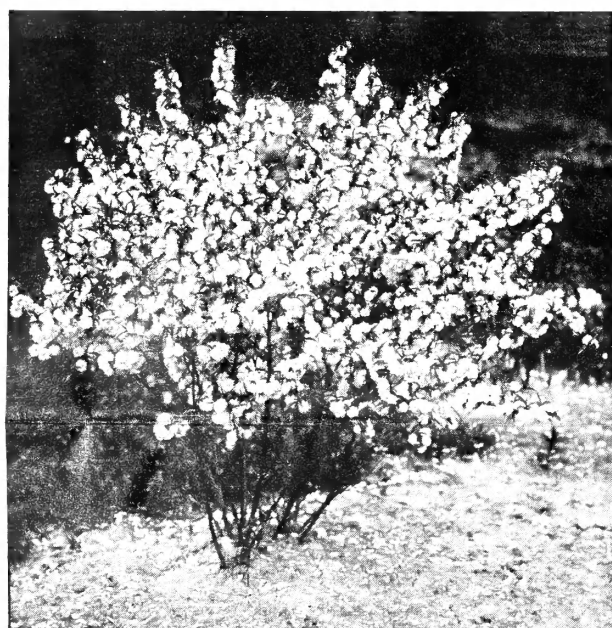

BECHTEL'S DOUBLE FLOWERING CRAB—Nothing is more handsome in the garden than the spring flowering crabapple and Bechtel's Double Flowering Crab is one of the best of all of them. The flowers are very much like double pink roses and are produced in the greatest profusion. \$1.50 each; 3 for \$3.75; 6 for \$6.00; 12 for \$10.00.

NIEDZWETZKYANA CRAB—Known as the red-veined crab. Remarkable for the red color of flowers, branches, leaves, and fruit. Fine strong 3 ft. trees. \$1.50 each; 3 for \$3.75; 6 for \$6.00; 12 for \$10.00.

GOLDEN RAIN TREE—A very handsome, rare, and little known tree with attractive clover-like silky foliage with bright yellow pendulous clusters of flowers shaped much like sweet peas. I have a few extra nice strong trees at \$1.50 each; 3 for \$3.75; 6 for \$6.00.

Bechtel's Double Flowering Crab

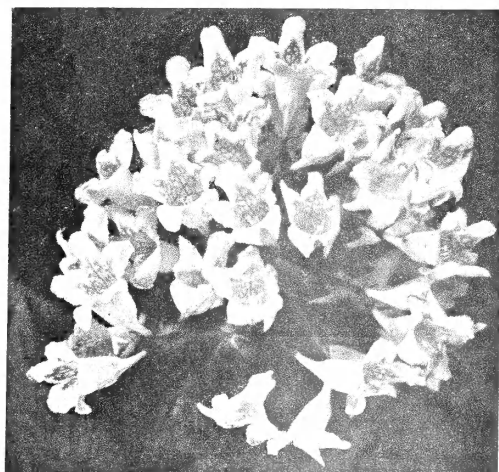

DOUBLE PINK FLOWERING ALMOND—This is in my opinion the very finest of all the early flowering shrubs. The artistic double bright rose pink blossoms are much like a button or pompon chrysanthemum and as shown by the above illustration they are produced in greatest profusion. Hardy anywhere. \$1.25 each; 3 for \$3.25; 6 for \$6.00.

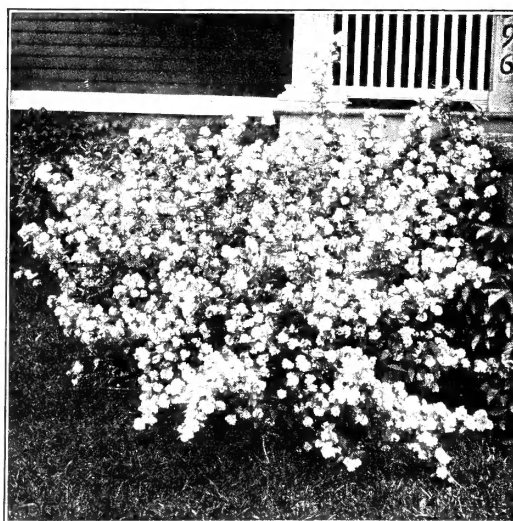

TULIP TREE—One of our finest hardy shade trees of the Magnolia family, having attractive bluish-green foliage and bearing in May or June large greenish yellow flowers, with an orange base, followed by long cone-shaped fruit. 75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$6.00.

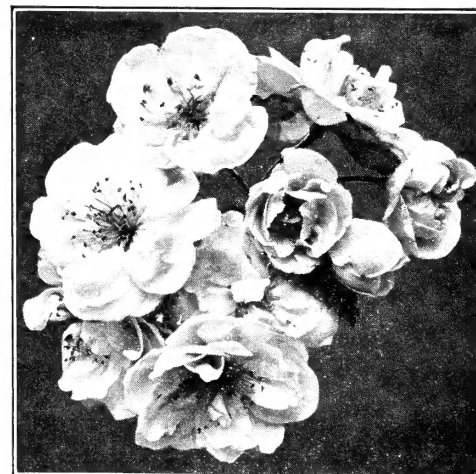

HYDRANGEA ARBORESCENS GRANDIFLORA—This shrub is well known for its great profusion of late summer and fall bloom. It can be used as a specimen shrub, as illustrated above, and is superb as a flowering hedge. Extra strong 4 year plants. 75c each; 3 for \$2.00; 6 for \$3.50; 12 for \$6.00; 25 for \$10.00.

WEIGELIA "ROSEA"—The very handsome pink trumpet shaped flowers are produced by this fine shrub in the greatest profusion in early summer. Like all of the other items offered in this special sale they are hardy and easy to grow anywhere. Extra strong heavy plants. 75c each; 3 for \$2.00; 6 for \$3.50; 12 for \$6.00; 25 for \$10.00.

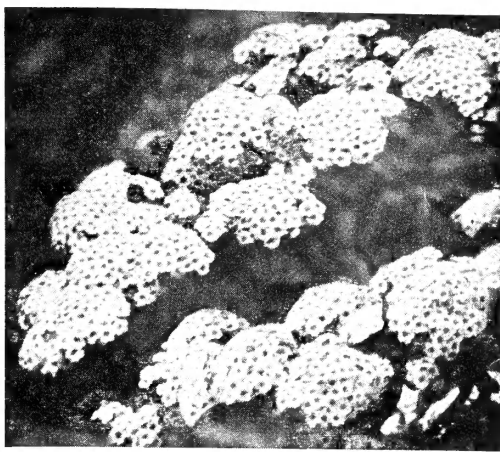

DEUTZIA "Pride of Rochester"—I consider this the finest of all the Deutzias, with its wealth of double rosette-like snow white flowers in early spring. Fine for a lawn specimen or to use as a hedge. I have some extra strong 5 ft. shrubs ready to flower at 75c each; 3 for \$2.00; 6 for \$3.50; 12 for \$6.00; 25 for \$10.00.

MOCK ORANGE—Are extremely ornamental and showy. You may have the double Mock Orange as illustrated above or the Big Sweet Scented Single. Fine strong 4 yr. old, 4 to 5 ft. plants, \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50; 25 for \$12.50.

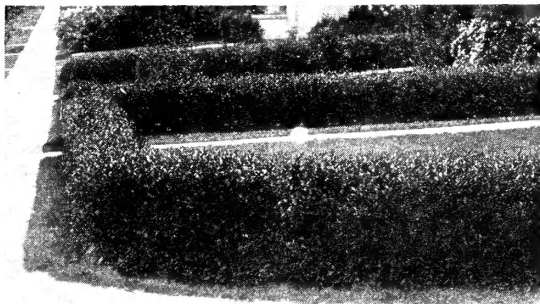

NOW IS THE BEST TIME TO PLANT

SPIRAEA "Anthony Waterer"—This variety is equally as attractive as "Van Houttei" but the flowers are pink with a deeper eye. Fine big plants. 75c each; 3 for \$2.00; 6 for \$3.50; 12 for \$6.00; 25 for \$10.00.

SPIRAEA "Van Houttei"—As will be seen by the illustration above there is no finer shrub than this for a white flowering hedge or foundation planting, as it is completely covered with flowers from the ground up. The fine foliage which follows the flowers, is fern-like and attractive. Fine big strong plants. 75c each; 3 for \$2.00; 6 for \$3.50; 12 for \$6.00; 25 for \$10.00.

HARDY AMOOR RIVER PRIVET HEDGE—There is nothing finer for a hedge, as shown by the illustration above. Fine strong 4 yr. heavy plants. \$3.00 a dozen; \$15.00 a hundred.

HUGONIS SHRUB ROSE—THE GOLDEN ROSE OF CHINA—every twig is covered with sparkling yellow flowers, just like the illustration, during May and June. The bush grows 6 to 8 feet tall and is ornamental at all times, the pendulous branches being covered with fine lacy foliage. Extra strong bushes. \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

SUMMER BLOOMING LILAC or BUTTERFLY BUSH—BUDDLEIA FORTUNE—Color pure lilac. **BUDDLEIA CHARMING**—Lovely pink tone. **BUDDLEIA DUBONNET**—Dubonnet wine color. Fine strong plants of all of the above. \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$8.00.

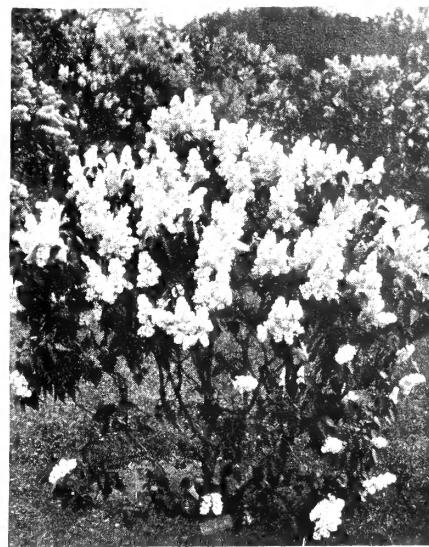

BUSH HONEYSUCKLE FRAGRANTISSIMA—Valued on account of its sweet scented creamy white flowers and shiny green foliage which remains green well into the winter, being a half evergreen.

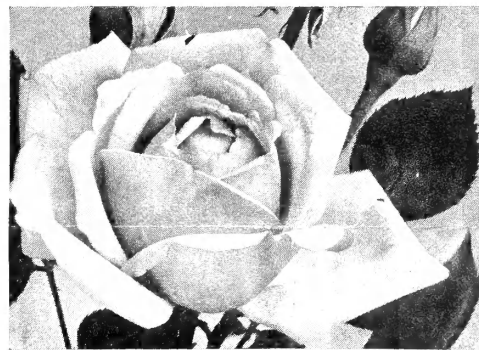

PINK TARTARIAN BUSH HONEYSUCKLE—Bears a great profusion of pink flowers followed by dark red fruit.

WHITE BUSH HONEYSUCKLE—A white flowering form of the above.

Extra strong robust plants of all bush honeysuckles—75c each; 3 for \$2.00; 6 for \$3.50; 12 for \$6.00; 25 for \$10.00.

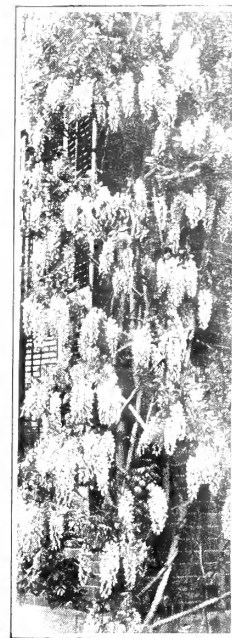

FRENCH LILACS—I have a fine assortment of extra choice plants including practically all of the best. More than 40 varieties, in purple, bluish-lilac; red tones; violet; white; pinkish-lilac; magenta-lilac; blue, and all of the desirable tones in both single and double. Order by color or write for special list. Price \$2.50 each.

EVERBLOOMING CLIMBING ROSES—Just a few of them left.

Everblooming Climbing Red Radiance
Everblooming Climbing Pink Radiance
Everblooming Climbing Talisman
Everblooming Climbing President Hoover
Everblooming Climbing Etoile d' Holland

While they last, \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

SUPER-WISTERIA—Strong robust flowering sized plants ready to bloom. All plants grafted and grown from flowering wood, therefore every plant will furnish a great profusion of bloom just as shown in the illustration. WHITE or PURPLE, your choice, \$1.50 each; 3 for \$3.75; 6 for \$6.00.

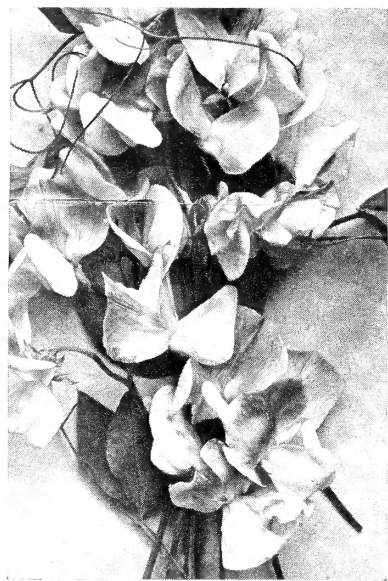

3 EXQUISITE PEONIES FREE

IMPERIAL PEONY COLLECTION—3 varieties worth \$3.00 or more, with 3 others free. All six for \$3.00. All different—A fragrant yellow, a coffee and cream color, soft rose pink, bright crimson, milk white, and deep pink. All Double Peonies, Each One Labelled, 6 for \$3.00.

ALL ITEMS IN THIS FOLDER

BLUE VERONICA—There are no more lovely blue flowers for the garden than these spires of blue. They are about 2 ft. tall, hardy, continuous bloomers, and will grow anywhere. Strong plants, 35c each; 3 for 75c; 6 for \$1.25; 12 for \$2.00; 100 for \$15.00.

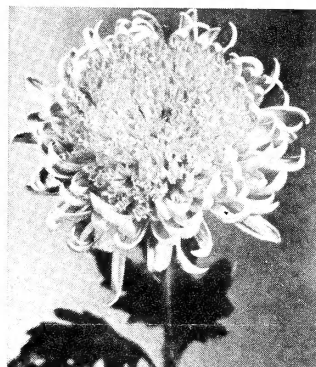

HARDY SWEET PEAS—They come up year after year without care, each plant covering several feet of trellis or low fence. The flowers grow in clusters as shown in the above illustration, one cluster forming a nice corsage bouquet. Pink, Red, White, Assorted Colors. Strong plants, 35c each; 3 for 75c; 6 for \$1.25; 12 for \$2.00; 100 for \$15.00.

ARMERIA Formoso Hybrids—10 to 12 inches. Superb for the rock garden. Globular pink flowers. 35c each; 3 for 75c; 6 for \$1.25; 12 for \$2.00; 100 for \$15.00.

NEW HARDY VIOLAS—The plants I am offering are such beauties as you have never seen before. Violas are the happy result of crossing our Hardy Violets with Pansies, producing the vigor of the violet with the beauty of the finest Pansies, and blooming all summer and fall. Plant now for blooms next season. Ruby reds, purple, pure blues, yellows, whites, apricot, and peach tones, assorted. 3 for 75c; 6 for \$1.25; 12 for \$1.75; 100 for \$13.50.

HARDY CHRYSANTHEMUM—Doubles or Singles. Fine color assortment, strong field grown clumps. 3 for \$1.50; 6 for \$2.25; 12 for \$3.75; 36 for \$9.00.

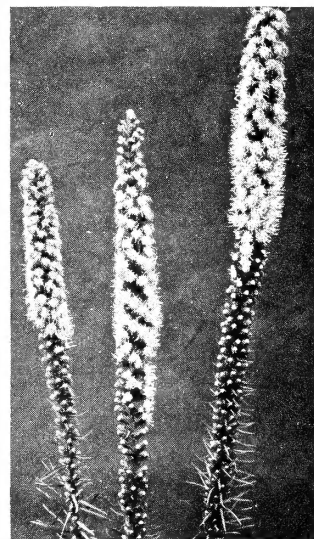

LILY OF THE VALLEY—Excellent for putting in a shady spot. A specially fine strain. \$1.50 a dozen; \$7.50 a hundred.

PINK LILY OF THE VALLEY—Something entirely new in a delightful shade of lavender pink. \$2.50 a dozen; \$13.50 a hundred.

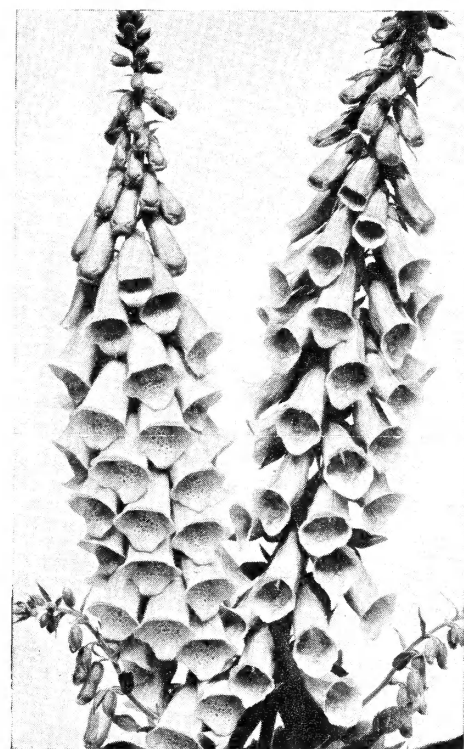

RUDBECKIA PURPUREA—Hardy, free flowering. Excellent for cut flowers or in the garden. Bloom from July to October. Good for sun or partial shade. 3 for \$1.00; 6 for \$1.75; 12 for \$3.00.

LIATRIS (Blazing Star or Gayfeather)—An excellent cut flower or garden subject, with feathery lilac flowers along a delphinium-like stalk. 35c each; 3 for 75c; 6 for \$1.25; 12 for \$2.00; 100 for \$15.00.

REGAL LILY—This lily is well named as it is a flower of regal splendour. The flowers are of immense size and great beauty, being of snowy whiteness with an attractive soft yellow center and the outside flushed soft pink. It is delightfully perfumed, having the sweet fragrance of the Jasmine. One flower stalk will often make a complete bouquet. It flowers in July. Large bulbs—35c each; 3 for \$1.00; 12 for \$3.50; 100 for \$25.00.

GIANT FLOWERING FOXGLOVES—Grandiflora Hybrids—Striking garden subjects. Marvelous color range, all colors assorted. 3 for \$1.00; 6 for \$1.75; 12 for \$3.00.

CANDYTUFT (Iberis Sempervirens)—Completely covered with white flowers in early Spring. Excellent for partial shade. 35c each; 3 for 75c; 6 for \$1.25; 12 for \$2.00; 100 for \$15.00.

LAST CALL OF THE SEASON "GOLDEN GLEAM" COLLECTION OF DAFFODILS, NARCISSUS, JONQUILS, ETC.

20 TOP SIZE BULBS—\$1.00

60 TOP SIZE BULBS—\$2.50

250 TOP SIZE BULBS—\$9.50

This collection consists of a well balanced mixture of the finest
types, including Yellow Trumpet Daffodils, Bi-color Trumpet Daffo-
dils, Barri Narcissus, Poets Narcissus, Double Narcissus, Leedsii
Types, Jonquils and Jonquil Hybrids. They will bloom for you
early next Spring and beautify your garden and provide lovely
bouquets of cut flowers for the house for years to come. Once
planted they may be left alone and will give you an increasing
quantity of lovely flowers early each spring.

It would be hard to make another investment that will give
you so much lifelong beauty for so little expenditure of money.

SOMETHING GORGEOUS

DOUBLE GAILLARDIAS

These come in an unbelievable range of colors that are not
to be found in the single Gaillardias. In fact they contain every
color imaginable. They are even more double than a rose, being a
perfect ball of petals. In addition to their gorgeous color range,
they bloom all summer long right up to severe freezing weather.
This is the first time I have ever offered them and the quantity
available is limited. Strong plants that flowered this season 50c
each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50.

DO NOT OVERLOOK THE SPECIAL BARGAINS IN JAPANESE AND SIBERIAN IRISES

ON THE BACK OF THE FOLDER ACCOMPANYING THIS
LEAFLET. THE PLANTS ARE MARVELOUS AND THE
FLOWERS GORGEOUS.

(OVER)

DOUBLE SHASTA DAISY—This is one of the most glorious of all flowers both as a cut flower and for garden effect. They flower profusely from early summer until killed by frost. 50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50.

PINK SHASTA DAISY "Clara Curtis"—Absolutely new, introduced for the first time in 1939. A glowing Pink Shasta Daisy that is hardy and disease resistant. Height 18 to 24 inches with a spread of 2 feet and literally covered with flowers. Gorgeous in the garden and superb for cut flowers. Flowers during August, September, and October. Only a limited quantity available for delivery this year. 50c each; 3 for \$1.25; 6 for \$2.00.

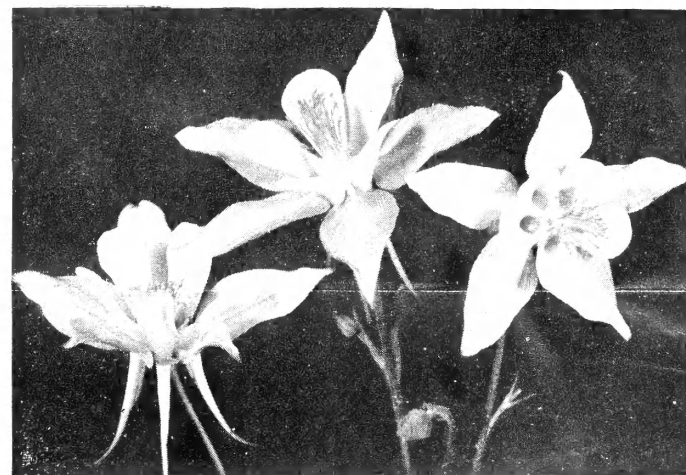

SINGLE SHASTA DAISY—Produces, in great profusion, huge daisy-like flowers. Superb for cutting or garden effect. 35c each; 3 for 75c; 6 for \$1.25; 12 for \$2.00; 100 for \$15.00.

MERTENSIA VIRGINICA (Virginia Bluebells)—This is one of the most delightful of our early spring flowers either for the rock garden or the border, or the wild garden. They will make themselves at home anywhere. Lovely porcelain blue flowers in clusters from 12 to 18 inches high. Has an unusually long flowering season. 3 for 75c; 6 for \$1.25; 12 for \$2.25; 100 for \$15.00.

SALVIA AZUREA (Blue Sage)—Extremely hardy, with delightful rich sky blue flowers, generously produced summer and fall. Nothing nicer where blue flowers are wanted. 35c each; 3 for 75c; 6 for \$1.25; 12 for \$2.00; 100 for \$15.00.

AQUILEGIA (Columbine)—Every gardener loves the dainty Columbine. I have a grand assortment in a dazzling array of colors in the finest new long spurred hybrids. 4 for \$1.00; 8 for \$1.50; 20 for \$3.50.

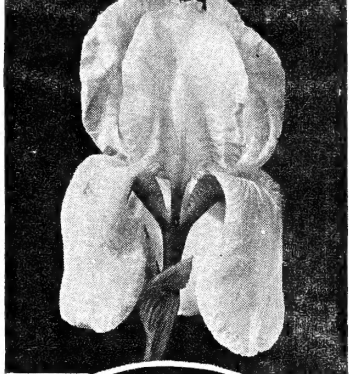

TRILLIUM GRANDIFLORUM—The Trillium is a native woodland plant known as wood-lilies or "Wake Robin." Grandiflorum is the largest and finest of all, producing their delightful star-like snow white blossoms early in the spring. They prefer a shady location and are fine for a shady nook in the garden, or for naturalizing in the woodland. When once planted they require no care, but come up each Spring and continue to multiply from year to year. Hardy anywhere. 3 for 75c; 6 for \$1.25; 12 for \$2.00; 100 for \$15.00.

GAILLARDIA—18 inches. Daisy shaped, orange-yellow flowers banded with red. Flowers freely all summer and fall, producing an abundance of cut flowers all season. 35c each; 3 for \$1.00; 12 for \$3.50.

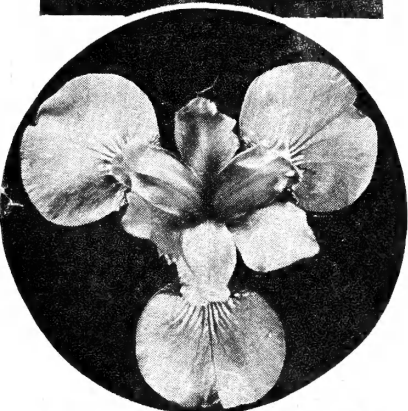

HEMEROCALLIS OR DAY LILY—A grand assortment of 8 different varieties, all labelled for \$2.00.

“Good Will” Long Season Iris Collection **25 PLANTS ALL DIFFERENT FOR \$2.00**

This is a remarkable collection that will give you a representative display of the newer Iris shades and colors. **EVERY PLANT WILL BE A DIFFERENT VARIETY.** Together they will give you a brilliant galaxy of lovely and harmonious colors and blends (or you may have all one color if you wish). In addition to all this it will include Autumn Flowering Iris which flower in early spring and again in the fall; and Pogocyclus Hybrids. Of course the plants will not be separately labelled, but it will be a definitely “assembled” collection, with each variety especially selected. They are hardy anywhere.

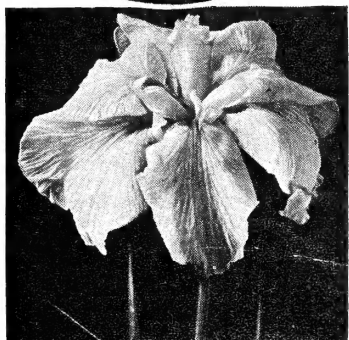

18 WORLD'S FINEST SIBERIAN IRIS FOR \$2.00

This very unusual collection will contain many of the finest Siberian Iris obtainable anywhere in the world at any price. Varieties will be included in this collection that originally sold at \$5.00 to \$25.00 a plant. They are prodigious bloomers and make excellent cut flowers. In form they differ from all other Iris and deserve a place in every garden. They will flower gloriously in sun or partial shade, in a wet or a dry spot and in any ordinary garden soil and of course they are hardy anywhere. One plant soon makes a clump that will produce hundreds of flowers. While the individual plants will be unlabelled the varieties will be selected to assure a full color range.

15 SUMMER-BLOOMING JAPANESE IRIS—\$2

They flower after the above two groups of Iris have finished blooming and thus extend the flowering season for about 30 days during the summer months. They are the most showy of all Iris and if I could have just one group of Iris it would be the Japanese Iris. They come at a time when other flowers are scarce in the garden. They are of huge size, some being as large as a dinner plate. There are soft pastel colors to gorgeously brilliant tones, solid colors, striped and blended ones. Japanese Iris are still quite scarce in this country and not many gardens enjoy their distinctive beauty. My own collection of several hundred varieties, assembled throughout a lifetime of plant collecting, is one of the finest in the world. You are sure of something unusual and beautiful in your garden if you order this collection. I guarantee that each collection will contain one or more plants of Nishki-Yama, which I consider the world's finest Iris. While the individual plants will be unlabelled, the varieties will be selected to assure a full color range.

OF UNUSUAL INTEREST

FORSYTHIA—Yellow flowers in early Spring. Strong 4 yr. 4 to 5 ft. specimens, 75c each; 3 for \$1.75.
